

**OUTCROP
SILVER**

ONE OF THE WORLD'S RICHEST PRIMARY SILVER DEPOSITS

IN COLOMBIA'S TRADITIONAL MINING REGION

**CORPORATE
PRESENTATION**
MARCH 2025

CA: TSX.V: [OCG](#) | US: OTCQX: [OCGSF](#) | DE: DB: [MRG](#)

OUTCROP
SILVER

FORWARD LOOKING STATEMENT

This presentation does not constitute an offer to sell or a solicitation of an offer to buy any securities of the Company. The securities of the Company have not been, and will not be, registered under the United States Securities Act of 1933, as amended, or any state securities laws, and such securities may not be offered or sold in the United States or to U.S. persons unless registered or exempt therefrom.

Certain statements included in this presentation are forward-looking statements within the meaning of Canadian securities laws, including the following statements: the ability of Outcrop Silver & Gold Corporation to make discoveries and develop resources, the anticipated economic potential of the concessions, and the availability of capital and finance for the Company to execute its commitments and strategy going forward. Forward-looking statements are based on estimates and assumptions made by the Company in light of its experience and perception of current conditions and expected future developments, as well as other factors that the Company believes are appropriate in the circumstances. Many factors could cause the Company's results, performance or achievements to differ materially from those expressed or implied forward-looking looking statements, including discrepancies between actual and estimated results from exploration and development, and operating risks, dependence on early exploration stage concessions, political and foreign risks, uninsurable risks, competition, regulatory restrictions, including environmental regulatory restrictions and liability currency fluctuations, defective title to mineral claims or property, and dependence on key employees. Persons reviewing this presentation are cautioned not to place undue reliance on forward-looking statements due to the inherent uncertainty therein. The Company disclaims any intention or obligation to update or revise any forward-looking statements, whether as a result of new information, future events or otherwise, except as required by law.

Unless otherwise indicated, the scientific and technical information contained in this presentation has been reviewed by Edwin Naranjo Sierra Msc. FAusIMM., who is a "Qualified Person" as defined under National Instrument 43-101 and considered verified and accurate from the Technical Report filed on SEDAR titled "Santa Ana Property Mineral Resource Estimate". Prepared by AMC Mining Consultants (Canada) Ltd. dated June 8, 2023.

SANTA ANA

THE SILVER TRIFECTA

RESOURCE ⁽¹⁾

Indicated: 1.23 mt at 614 g/t AgEq for **24.2 Moz** AgEq
Inferred: 0.97 mt at 435 g/t AgEq for **13.5 Moz** AgEq

GRADE⁽¹⁾

Indicated Resource Grades
Primary Silver Development Project

Santa Ana Dolly Varden Panuco
Source: Corporate websites

RECOVERY ⁽²⁾

Product	Mass %	Ag	Au
Gravimetric Concentrate	1.31	7.6%	35.8%
Rougher Concentrate	10.04	88.6%	62.7%
Global	11.35	96.3%	98.5%

CONCENTRATE GRADE ⁽²⁾

Product	Mass %	Ag g/t	Au g/t
Gravimetric Concentrate	1.31	2,883	164.1
Rougher Concentrate	10.04	4,356	37.5
Global	11.35	4,187	52.1

1

HIGH-GRADE PRIMARY SILVER

Indicated Resource: 614 AgEq g/t (446 Ag g/t and 2.3 Au g/t)

2

HIGH METALLURGICAL RECOVERY

96.3% silver and 98.5% gold recovery

3

HIGH-QUALITY PRECIOUS METAL CONCENTRATE

Concentrate grade of 4,187 Ag g/t and 52.1 Au g/t

(1) Refer to the disclosure provided in Outcrop Silver's news release announcing independent initial indicated resource estimation on April 26, 2023 and more details on slide 5
 (2) Silver & Gold Recoveries & Concentrate Grades: see Outcrop Silver's news release announcing updated metallurgical results on June 25, 2024

MAIDEN RESOURCE ESTIMATE (2023)

Indicated Resource

- Resource composed of only 7 of more than 26 sampled veins
- Less than 25% of concession area mapped
- 73% of combined resources are silver
- 64% of AgEq ounces are classified as Indicated

(1) Effective date of this Mineral Resource Estimate (MRE) is April 26, 2023.
 (2) Rod Webster, MAusIMM(CP) of AMC Consultants has conducted the Santa Ana Silver Project MRE and is independent Qualified Persons as defined in the NI 43-101 Standards of Disclosure for Mineral Projects.
 (3) The Mineral Resources disclosed in this Statement were estimated following the 2014 CIM Definition Standards for Mineral Resources and Mineral Reserves and the 2019 CIM Estimation of Mineral Resources and Mineral Reserves Best Practices Guidelines.
 (4) Mineral Resources were reported within potentially mineable shapes, assuming an underground mining method with a minimum mining width of 1.0 m, which is common practice in Colombia.
 (5) Mineral Resources are not mineral reserves and do not have demonstrated economic viability.
 (6) Geologic interpretation and modelling of the veins were completed by Outcrop Silver & Gold Corporation's team in Colombia using Leapfrog Geo software which was subsequently reviewed by AMC's QPs. AMC's Mineral Resource Specialist, Rod Webster, MAusIMM(CP), completed the MRE using Datamine Studio software.
 (7) The resource estimate is reported for an underground mining scenario using a Silver Equivalent (AgEq) cut-off grade. The cut-off grade of 158.0 g/t Ag was calculated using a silver price of USD 25.0/oz, Gold price of USD 1,800.0/oz; a mining cost of USD 69.0/t, processing cost of USD 32.0/t and G&A costs of USD 13.0/t and metallurgical recoveries of 93% for Ag and 96% for Au.
 (8) The AgEq was calculated using the prices (P), recoveries (R) and grades of each element using the following formula: $AgEq\ g/t = Ag\ g/t + ((AuP \cdot AuR) / (AgP \cdot AgR)) \cdot Au\ g/t$. No sales or marketing costs were considered.
 (9) Bulk density values were interpolated for each of the mineralized veins with the global average at reporting AgEq cut-off for the entire Santa Ana deposit is 2.7 t/m³.
 (10) 2D Accumulation method using Ordinary Kriging (OK) into blocks generally 10 m in size across and vertically down the vein. The block size along the dip direction covered the whole vein.
 (11) The Mineral Resource results are presented in-situ. Estimations used metric units (metres, tonnes, g/t, %). The number of rock tonnes and contained metal are rounded to the nearest thousand. Any discrepancies in the totals are due to rounding effects.
 (12) The QP is not aware of any known environmental, permitting, legal, title-related, taxation, socio-political, marketing or other relevant issues that could materially affect the mineral resource estimate other than those disclosed in this Statement.

Classification	Tonnes (Kt)	Average Grade			Contained Metal		
		AgEq (g/t)	Ag (g/t)	Au (g/t)	AgEq Moz	Ag Koz	Au Koz
Total Indicated	1,226	614	446	2.3	24.3	17,567	88.8
Total Inferred	966	435	312	1.6	13.5	9,677	50.9

2025 - ACCRETIVE RESOURCE EXPANSION

2023 MRE

Maiden Resource Estimate (MRE) ⁽¹⁾

Apr 2023

- Indicated: **1.23 mt @ 614 g/t AgEq for 24.2 Moz AgEq**
- Inferred: **0.97 mt @ 435 g/t AgEq for 13.5 Moz AgEq**
- Only 7 of more than 26 sampled veins in resource

2024 PATHWAY

2024 Drill Program

Apr 2024

- Pathway to Resource Expansion
- Maximize the potential of the 17 km strike of drill permitted targets along the 30 km mineralized trend

Aguilar – Discovery Hole Release ⁽²⁾

Jun 2024

Jimenez – Discovery Hole Release ⁽³⁾

Sept 2024

La Ye – Discovery Hole Release ⁽⁴⁾

Oct 2024

2025 EXPAND

2025 Drill Program

- 24,000-metres focused accretive resource expansion
- Focus on maximizing ounces per metre resource conversation

Los Mangos – Discovery Hole Release ⁽⁵⁾

Mar 2025

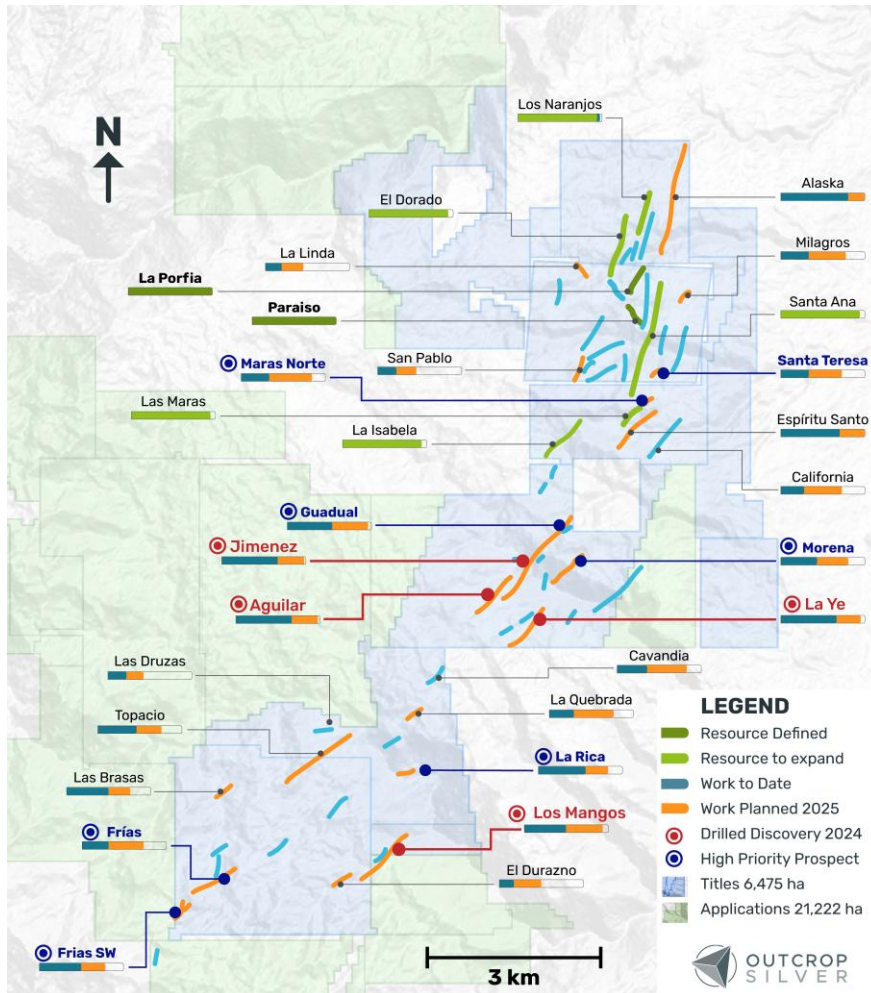

2026 UPDATE

Q1-2026 (Target) Updated Mineral Resource Estimate

- Continue resource expansion drilling

(1) Refer to the disclosure provided in Outcrop Silver's news release announcing independent initial indicated resource estimation on April 26, 2023 and more details on slide 5
 (2) Refer to the disclosure provided in Outcrop Silver's news release announcing drills high-grade silver at new Aguilar vein, underpinning expansion strategy at Santa Ana
 (3) Refer to the disclosure provided in Outcrop Silver's news release announcing intercepts 1.3 metres of 888 grams per ton silver equivalent along the new Aguilar vein at Santa Ana
 (4) Refer to the disclosure provided in Outcrop Silver's news release announcing a discovery at La Ye vein in Santa Ana
 (5) Refer to the disclosure provided in Outcrop Silver's news release announcing a discovery at Los Mangos vein in Santa Ana

2025 EXPLORATION PLAN

(1) Refer to the disclosure provided in Outcrop Silver's news release announcing independent initial indicated resource estimation on April 26, 2023 and more details on slide 5

CENTERED IN COLOMBIA'S MINING DISTRICT

Santa Ana is in the center of the most important metal mining district in Colombia, from colonial times to modern day

- Highway access, grid power, water, strong community support, and excellent security conditions.
- Silver is a strategic metal for the government's energy transition economy.

LEGACY FORWARD

On July 2024, Falan placed their ‘letters’ in town plaza, with each letter representing representing the most defining qualities of the town.

The letter '**L**' stands for **Legacy**—honoring its rich silver mining history and its future as a leader in sustainable energy.

Conservation Through Community Partnership

Partners with community to support initiatives that reflect the region's environmental priorities

- **Tree Nursery:** Over 4,000 seedlings and 3,903 trees planted
- **Green Vision Ecologic Group:** 35 local youth leading hands-on environmental efforts
- **Recycling Program in Falan**

Collaborative Pathways to Development

Ensuring community-driven growth by prioritizing jobs and purchases

- **77** Direct jobs
- **153** Indirect jobs
- **73** Local entrepreneurs engaged
- **214** families supported

Transforming Passion into Economic Growth

Beekeeping School: Fueled by personal dedication, this initiative empowers local families with entrepreneurial opportunities

- **78** beekeepers trained in Falan
- **60** beehives installed
- **3 million** pollination bees

Strength Through Strong Relationships Communities

Continuous Engagement and Transparent Dialogue

- Sharing insights on the Santa Ana project
- Collaborating on regional vision with Falan
- Enhancing understanding of the project
- Integrating local perspectives and ideas

FOCUSED ON VALUE CREATION LEVERAGED TO SILVER

SOLID FOUNDATION

- Primary Silver
- High Grade
- High Recovery
- Quality Concentrate
- Established Resource
- Drill Proven Expansion

PATHWAY TO GROWTH

- Accretive Resource Expansion
- Silver Outlook
