**CORPORATE
PRESENTATION**
NOVEMBER 2025

This presentation does not constitute an offer to sell or a solicitation of an offer to buy any securities of the Company. The securities of the Company have not been, and will not be, registered under the United States Securities Act of 1933, as amended, or any state securities laws, and such securities may not be offered or sold in the United States or to U.S. persons unless registered or exempt therefrom.

Certain statements included in this presentation are forward-looking statements within the meaning of Canadian securities laws, including the following statements: the ability of Outcrop Silver & Gold Corporation to make discoveries and develop resources, the anticipated economic potential of the concessions, and the availability of capital and finance for the Company to execute its commitments and strategy going forward. Forward-looking statements are based on estimates and assumptions made by the Company in light of its experience and perception of current conditions and expected future developments, as well as other factors that the Company believes are appropriate in the circumstances. Many factors could cause the Company's results, performance or achievements to differ materially from those expressed or implied forward-looking looking statements, including discrepancies between actual and estimated results from exploration and development, and operating risks, dependence on early exploration stage concessions, political and foreign risks, uninsurable risks, competition, regulatory restrictions, including environmental regulatory restrictions and liability currency fluctuations, defective title to mineral claims or property, and dependence on key employees. Persons reviewing this presentation are cautioned not to place undue reliance on forward-looking statements due to the inherent uncertainty therein. The Company disclaims any intention or obligation to update or revise any forward-looking statements, whether as a result of new information, future events or otherwise, except as required by law.

Unless otherwise indicated, the scientific and technical information contained in this presentation has been reviewed by Guillermo Hernandez, CPG-AIPG., who is a "Qualified Person" as defined under National Instrument 43-101 and considered verified and accurate from the Technical Report filed on SEDAR titled "Santa Ana Property Mineral Resource Estimate". Prepared by AMC Mining Consultants (Canada) Ltd. dated June 8, 2023.

THE SILVER TRIFECTA

RESOURCE ⁽¹⁾

INDICATED: 1.23 mt at **24.2 Moz** AgEq

INFERRED: 0.97 mt at **13.5 Moz** AgEq

(1) Effective date of this Mineral Resource Estimate (MRE) is April 26, 2023.

(2) Rod Webster, MAusIMM(CP) of AMC Consultants has conducted the Santa Ana Silver Project MRE and is independent Qualified Persons as defined in the NI 43-101 Standards of Disclosure for Mineral Projects.

(3) The Mineral Resources disclosed in this Statement were estimated following the 2014 CIM Definition Standards for Mineral Resources and Mineral Reserves and the 2019 CIM Estimation of Mineral Resources and Mineral Reserves Best Practices Guidelines.

(4) Mineral Resources were reported within potentially mineable shapes, assuming an underground mining method with a minimum mining width of 1.0 m, which is common practice in Colombia.

(5) Mineral Resources are not mineral reserves and do not have demonstrated economic viability.

(6) Geologic interpretation and modelling of the veins were completed by Outcrop Silver & Gold Corporation's team in Colombia using Leapfrog Geo software which was subsequently reviewed by AMC's QPs. AMC's Mineral Resource Specialist, Rod Webster, MAusIMM(CP), completed the MRE using Datamine Studio software.

(7) The resource estimate is reported for an underground mining scenario using a Silver Equivalent (AgEq) cut-off grade. The cut-off grade of 158.0 g/t Ag was calculated using a silver price of USD 25.0/oz, Gold price of USD 1,800.0/oz; a mining cost of USD 69.0/t, processing cost of USD 32.0/t and G&A costs of USD 13.0/t and metallurgical recoveries of 93% for Ag and 96% for Au.

(8) The AgEq was calculated using the prices (P), recoveries (R) and grades of each element using the following formula: $\text{AgEq g/t} = \text{Ag g/t} + \frac{((\text{AuP} * \text{AuR}) / (\text{AgP} * \text{AgR})) * \text{Au g/t}}{1}$. No sales or marketing costs were considered.

(9) Bulk density values were interpolated for each of the mineralized veins with the global average at reporting AgEq cut-off for the entire Santa Ana deposit is 2.7 t/m³.

(10) 2D Accumulation method using Ordinary Kriging (OK) into blocks generally 10 m in size across and vertically down the vein. The block size along the dip direction covered the whole vein.

(11) The Mineral Resource results are presented in-situ. Estimations used metric units (metres, tonnes, g/t, %). The number of rock tonnes and contained metal are rounded to the nearest thousand. Any discrepancies in the totals are due to rounding effects.

(12) The QP is not aware of any known environmental, permitting, legal, title-related, taxation, socio-political, marketing or other relevant issues that could materially affect the mineral resource estimate other than those disclosed in this Statement.

| DH203 | El Dorado | 2.22 | 2,746 | 6,097 | May 9, 2022 |
| DH457 | Los Mangos | 8.20 | 669 | 5,486 | April 22, 2025 |
| DH369 | Aguilar | 6.52 | 828 | 5,397 | July 17, 2024 |

(1) Reported intervals are drill core lengths and do not represent true widths.
(2) Metal prices used for equivalent calculations were US\$1,800/oz for gold, and US\$25/oz for silver. Metallurgical recoveries based on Outcrop Silver’s metallurgical test work are 97% for gold and 93% for silver.

*Based on silver equivalent grade-metres (AgEq gm/t), which reflect the product of grade multiplied by the mineralized length at a cut-off length of 2.0 metres.

CENTERED IN COLOMBIA'S MINING DISTRICT.

SANTA ANA IS IN THE CENTER OF THE MOST IMPORTANT METAL MINING DISTRICT IN COLOMBIA, FROM COLONIAL TIMES TO MODERN DAY.

- Highway access, grid power, water, strong community support, and excellent security conditions.
- Silver is a strategic metal for the government's energy transition economy.

LEGACY FORWARD

On July 2024, Falan placed their 'letters' in town plaza, with each letter representing the most defining qualities of the town.

The letter 'L' STANDS FOR LEGACY—HONORING ITS RICH SILVER MINING HISTORY AND ITS FUTURE AS A LEADER in sustainable energy.

RIGHT OF WAYS

2024 — 112

2025 — 233

Balcón del Tolima

LEGACY FORWARD

CONSERVATION THROUGH COMMUNITY PARTNERSHIP

Partners with community to support initiatives that reflect the region's environmental priorities

- Tree Nursery: Over 4,000 seedlings and 3,903 trees planted
- Green Vision Ecologic Group: 35 local youth leading hands-on environmental efforts
- Recycling Program in Falan

TRANSFORMING PASSION INTO ECONOMIC GROWTH

Beekeeping School: Fueled by personal dedication, this initiative empowers local families with entrepreneurial opportunities

- 78 beekeepers trained in Falan
- 60 beehives installed
- 3 million pollination bees

STRENGTH THROUGH STRONG RELATIONSHIPS

COLLABORATIVE PATHWAYS TO DEVELOPMENT

Ensuring community-driven growth by prioritizing local jobs and purchases

- 77 Direct jobs
- 153 Indirect jobs
- 73 Local entrepreneurs engaged
- 214 families supported

CONTINUOUS ENGAGEMENT AND TRANSPARENT DIALOGUE

- Sharing insights on the Santa Ana project
- Collaborating on regional vision with Falan
- Enhancing understanding of the project
- Integrating local perspectives and ideas

ALIGNED WITH GOVERNMENT

REGIONAL - TOLIMA

OUTCROP SILVER STANDS OUT AT THE INVESTOR ROUNDTABLE IN TOLIMA AS A HIGH-IMPACT PROJECT.

Press Release from the Government of Tolima – August 8, 2025 bit.ly/3Vz7mMZ

"We want a Tolima that moves forward decisively, that builds a competitive, attractive environment with real opportunities for investment."

Adriana Magali Matiz
Governor of Tolima.
2024-2027

"By supporting these initiatives, the departmental government seeks to consolidate a prosperous, competitive department open to new public-private investments."

Luis Alberto Cárdenas
Mining Energy Director - Tolima

“What we’re building in Tolima goes beyond discovery – it’s a partnership that scales. Outcrop Silver and its partners are showing how teamwork and vision can place Colombia among the leaders of the global silver industry.”
